Greetings,

I just wanted to drop a quick note to say thank you for a great product. We simply won't do a bed bug job now unless the customer agrees to purchase Active Guard's for the bedding. The benefit of using Active Guards far exceeds the additional cost. It just makes sense. We know where the bed bugs are going, so why not have the beds working for us 24/7.

I'm a believer. Thanks again.

Respectfully,
Bob Masters
