Dear Eve.

Thank you for allowing me this grand opportunity to work with you and the family of Allergy Technologies, the producers of the wonderful product called Activeguard.

I serve as a witness to the unparalleled success of Activeguard after using it at an account that was thoroughly infested with bed bugs and receiving call back after call back. Once we installed your mattress liner I had to follow up with the customer myself as we did not hear from them and up until that time I would hear from them pretty much every week. The report I received was a resounding success and I've thus used Activeguard again and again with the same results.

Activeguard has improved our bottom line, given our clients satisfaction and I am happy that I've found a product that truly delivers!

Keep up the good work,

3/22/2014

James A. Swint
