

ActiveGuard® Mattress Liners:

Key Messages – Hotel Sector

Features

- **ActiveGuard® Mattress Liners** are the only EPA-registered pro-active strategy for preventing a potential bed bug infestation before it establishes.
- **Superior to any other bed covering alternative**, *ActiveGuard®* helps protect your guest and bedding assets by actually killing bed bugs; even resistant strains studied!
- **The only bedding product** to provide active 24/7 protection against bed bugs for two years.
- **Cutting edge research** demonstrates that within only 10 minutes of contact, bed bugs tend not to feed and females do not drop their eggs, resulting in fewer bites and significant population control.
- **Kill bed bugs and dust mites continuously** for up to two years providing protection against any adult juvenile or bed bug eggs that may be introduced into a hotel room.
- **Extensively lab and field tested**, *ActiveGuard®*'s dust mite killing ability helps provide a hypo-allergenic bedding environment.
- **The perfect solution** when implementing a hotel-wide preventative strategy and for limited installations targeting high-risk rooms.
- **Thin and breathable**, these liners are easily installed onto mattresses and box springs by the housekeeping staff - even on California king-sized and XL mattresses.
- **Effective** when installed over encasements and under mattress pads.
- **Available in four sizes** that fit most mattresses and box springs.
- **Never needs repair** for rips or tears; continues to work even if torn.
- **Maintenance-free** and is fire-retardant.
- **Made from strong polyester netting**, *ActiveGuard®* is odorless, quiet and comfortable to sleep on; undetectable by the hotel guest.

ActiveGuard® Mattress Liners: Key Messages – Hotel Sector

Benefits

- **PROTECT YOUR GUESTS;** encasements simply protect your mattress and box spring.
- **REDUCE COSTS;** ActiveGuard® has proven to significantly reduce bed bug-related hotel treatment costs.
- **MAINTAIN BRAND REPUTATION;** increase confidence of guest and staff, while offering a unique selling feature over other unprotected competitor hotels.
- **INCREASE HOTEL OPERATING EFFICIENCIES;** lower expenses related to bed bug infestations including protection of bedding assets, loss of occupancy and reduced housekeeping inspection requirements.
- **WIDELY ACCEPTED;** permethrin is the active ingredient in ActiveGuard® and has been trusted by World and Corporate Leaders, Moms and Doctors for over 30 years.
- **WIDELY USED;** over 100,000 ActiveGuard® liners are in use and since 2006, not one product-related report has been filed with InfoTrac™, an international toll-free emergency hotline.
- **LABELED FOR ALL;** the EPA-registered label for ActiveGuard® has no age or use restrictions and is available for sale in all fifty states.
- **USEABLE BY ALL;** ActiveGuard®'s Safety Data Sheet indicates the product is EPA Toxicology Category IV by all routes of exposure; no signal words or hazards to humans and domestic animal statements are required.
